

Wellsystem Spa

For a holistic relaxation experience

Back problems and stress are widespread health issues that more and more people suffer from. The dry-water massage of Wellssystem Hydrojets relieves tension and helps to retain fitness in a relaxed manner. Wellssystem's dry water massage uses heat and water power for a relaxing full, or partial, body massage. A 15-minute session reduces stress, increases well-being and quite simply is good for you.

While you enjoy your massage, Wellssystem Spa takes you into a relaxing world of colours, light aromatic scents and relaxing sounds. Discover the wellness experience for all senses!

Switch on, to switch off

Coloured light to boost your mood

Colours and light can increase wellbeing and have numerous positive effects on the body and mind. The coloured light in the Wellssystem Spa ensures ultimate relaxation.

Collagen light for soft skin

Enjoy the soft collagen light to improve your skin while you enjoy your Wellssystem Spa experience.

Relaxing sounds

Complement your massage with relaxing sounds. Listen to music or meditative sounds. Connect your smartphone to make your Wellssystem massage completely personal.

Aromatic scents

With special aromatic scents, the massage becomes a complete feel-good experience. Close your eyes and enjoy the moment.
